Tainan- City of History and Culture

Tainan is the oldest city in Taiwan. It was the site of the main Dutch colony on the island, and after their defeat it became the country' s first capital under Chinese supervision. It was the capital of the island from 1662 until 1887. The Japanese did a lot of urban planning and restructuring of the city in the early part of the 20th century, but since then, the city has become more of a historic tourist destination than a cosmopolitan hub.

Areas

- 1 Resources Processing
- 2 Hydrometallurgy
- 3 Pyrometallurgy
- 4 Organic-inorganic material processing
- 5 Waste to energy
- 6 Recycling policy and management
